

## Chatterbox Index

I hope that when you see this article in Chatterbox you will find there is a link on the web site showing "Chatterbox Index." This has long been promised but as soon as I think it OK to publish, I decide on another cosmetic change. Here is basically how it works.

Please note in the first column,

Member / Author names are in **BLACK**

Names of vessels are entered in **RED**

Back Office details details (Expo's, Equipment, Tools etc) are in **BLUE**

Where possible I have cross referenced entries so Joe Blow's model of H.M.S. Victory will show as

**Blow** - Joseph - HMS. Victory – Edition 6 - Feb 2013 - Page 8

And

**HMS Victory** - J Blow - Edition - Feb 2013 - Page 8

Please let me know if you see anything missing or if you have any constructive suggestions on the format and layout of this index.

If you find something has not been "cross referenced" please let me know and I will change the master copy so it is correct on future issues.

You will understand this is purely on an E & O.E. so please let me know if you think anything should be changed, added, dropped or changed in any way.

AS I receive Chatterbox at the same time as other members, when a new issue is received, I will add those details to the index as soon as possible, so for a short period of time after the issue of an edition the index may not be quite up to date.

**It has taken a lot of time to prepare and I am under no illusions that it is in anyway perfect  
Please let me know BY EMAIL if you have any problems or suggestions.**
